Experience

C6 Bank **Remote**
Tech Engineer Specialist *2024–present*
Tech Engineer Specialist on the Artificial Intelligence team, leading Android development of C6 Assistant, an AI assistant launched to 35 million customers in December 2024. It has become one of the app's main entry points for questions, support and banking operations.

- Led Android development of C6 Assistant, from the conversational interface to the launch for the entire customer base;
- Launched to 35M customers;
- Built an AI-powered conversational interface.

C6 Bank **Remote**
Tech Engineer / Senior Tech Engineer *2020–2024*
Tech Engineer (2020–2022) and Senior Tech Engineer (2022–2024) on the Home Experience team, building mobile and backend (BFF) integrations for features such as home, login, investments, profile and menu. Contributed to the Design System with reusable, customizable components, and worked on permissioning services that control access to banking features.

- Evolved the home, login, investments, profile and menu flows;
- Built reusable components for the Design System;
- Implemented product permissioning services;
- Worked on the deploy process and on the bank's self-service kiosk project.

Cubos **Salvador**
Team Leader and Mobile Developer *2018–2020*
Team leader and mobile developer on EC Bahia, Zak and BBNK. EC Bahia (2018–2019) is the official Esporte Clube Bahia app (100k+ downloads); BBNK lets companies offer banking services to their customers.

Cubos Academy **Salvador**
Android Instructor *Mar–Jun 2019*
Trained developers from different stacks (backend, frontend, hybrid mobile, QA, etc.) to build native Android applications using design patterns and coding best practices.

Space Rocket **Salvador**
Co-founder *2016–2020*
Space Rocket accelerated businesses through technology by building custom digital solutions for companies. During this period, I helped build the company and worked on DizzinessApp, Data and Nutrition (in use today in hospitals in Bahia) and Constante (10k+ downloads).
Detailed Achievements:

- Winner of the Inova+Saúde 2018 competition with DizzinessApp;
- Winner of Campus Future with DizzinessApp.

ACSO – Computer Architecture and Operating Systems Center (UNEB) **Bahia - Brazil**
Researcher *2016–2018*

Researched Very Small Size Soccer and the RoboCup 3D Simulation League with the BahiaRT team, focusing on the team's strategy, such as robot coordination, behavior creation and pattern analysis.
Awards:

- Latin American Champion, 3D Simulation League 2017 (Curitiba - Brazil);
- Second Place, 3D Simulation League at the RoboCup Symposium 2017 (Nagoya - Japan);
- Sixth Place, RoboCup 2017 3D Simulation Competition (Nagoya - Japan).

Education

Bahia State University — **Bahia - Brazil**
Bachelor of Information Systems, — *2016–2021*

Languages

Portuguese: Native

Skills

Mobile: Kotlin, Java, Android SDK, Jetpack Compose, Coroutines & Flow, Navigation Component, Android UI / Animations, SQLite, Room, MVVM, Clean Architecture, MVP, Modular Architecture, Dependency Injection, Unit Testing, Robolectric, Detekt, CI/CD, GitHub Actions, Fastlane, Git

General: REST APIs, BFF, Backend Integration, Design Systems, Reusable UI Components, AI-powered Features, Conversational Interfaces, Local LLMs (Ollama), Docker, n8n, IoT (Home Assistant), Linux, Fintech, Digital Banking, Self-service Kiosks, Agile Methodologies

Personal Portfolio

- **Aureole Launcher:** in progress

Android launcher built 100% in Jetpack Compose (Clean Architecture, MVVM, Room, Coroutines/Flow): drag-and-drop grid, glassmorphic UI, dynamic themes and native widgets.

- **Tiker App:** 2020 – 2022

Open-source WhatsApp sticker organizer: turns photos into stickers, groups them into packs and shares them with friends.

- **Constante:** 2019 – 2020

Habits and goals app, from simple habits like drinking water to fully customizable ones, with reminders and progress stats. 10k+ downloads, 4.5 rating on Google Play.

- **DizzinessApp:** 2017 – 2018

Android app for dizziness therapy in children and adolescents, with vestibular exercises and progress tracking followed by a doctor.

- **CittiCard:** 2017 – 2018

Crowdsourced app showing whether Salvador Card self-service stations (metro and bus tickets) are working and where the nearest one is.
